## Machine Mix-Up!

Can you match the picture of the building machine to its name?

### Bonus round!

What do you think each machine can do?

A) Bulldozer

B) Digger

C) Flat bed crane

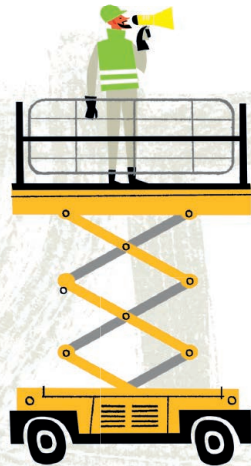

D) Concrete mixer

E) Scissor truck

3

4

5

Answers:

1 = A) Bulldozer - This machine can knock down walls and push heavy loads to clear the ground.

2 = D) Concrete mixer - This machine keeps its drum turning to stop the concrete inside going hard.

3 = C) Flat bed crane - This machine is used for moving heavy and long things, for example pipes or pieces of the tower crane.

4 = E) Scissor truck - This machine allows workers to work at areas high above ground level.

5 = B) Digger - This machine can lift and move materials as well as dig up the ground with its scoop.

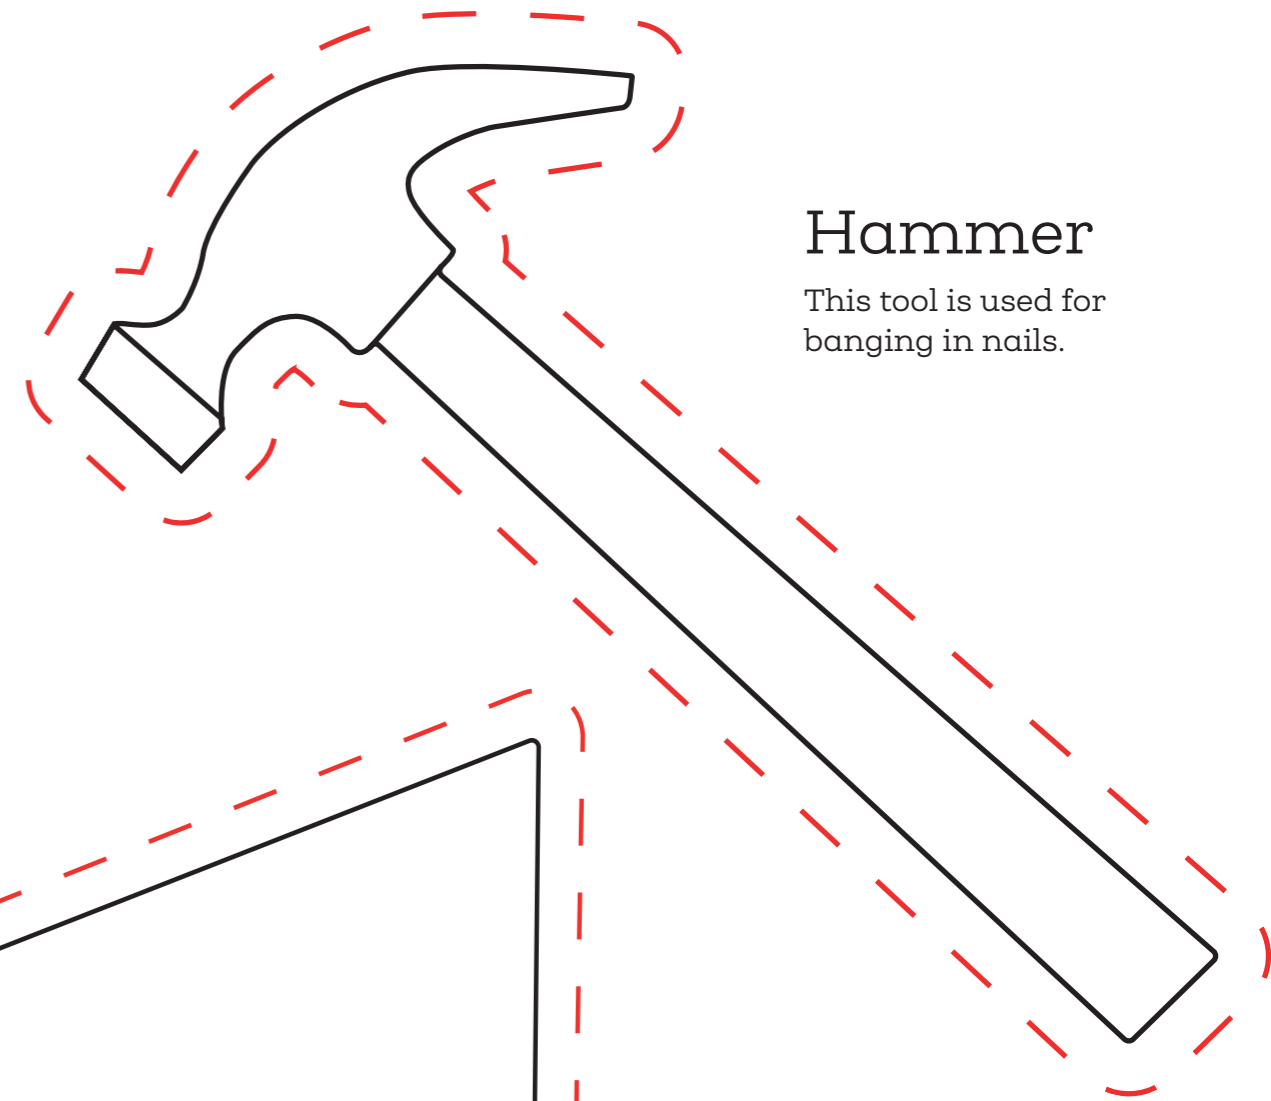

# My Tool Kit

Do you want to learn how to build?  
First, you'll need your own tool kit!

## What you'll need:

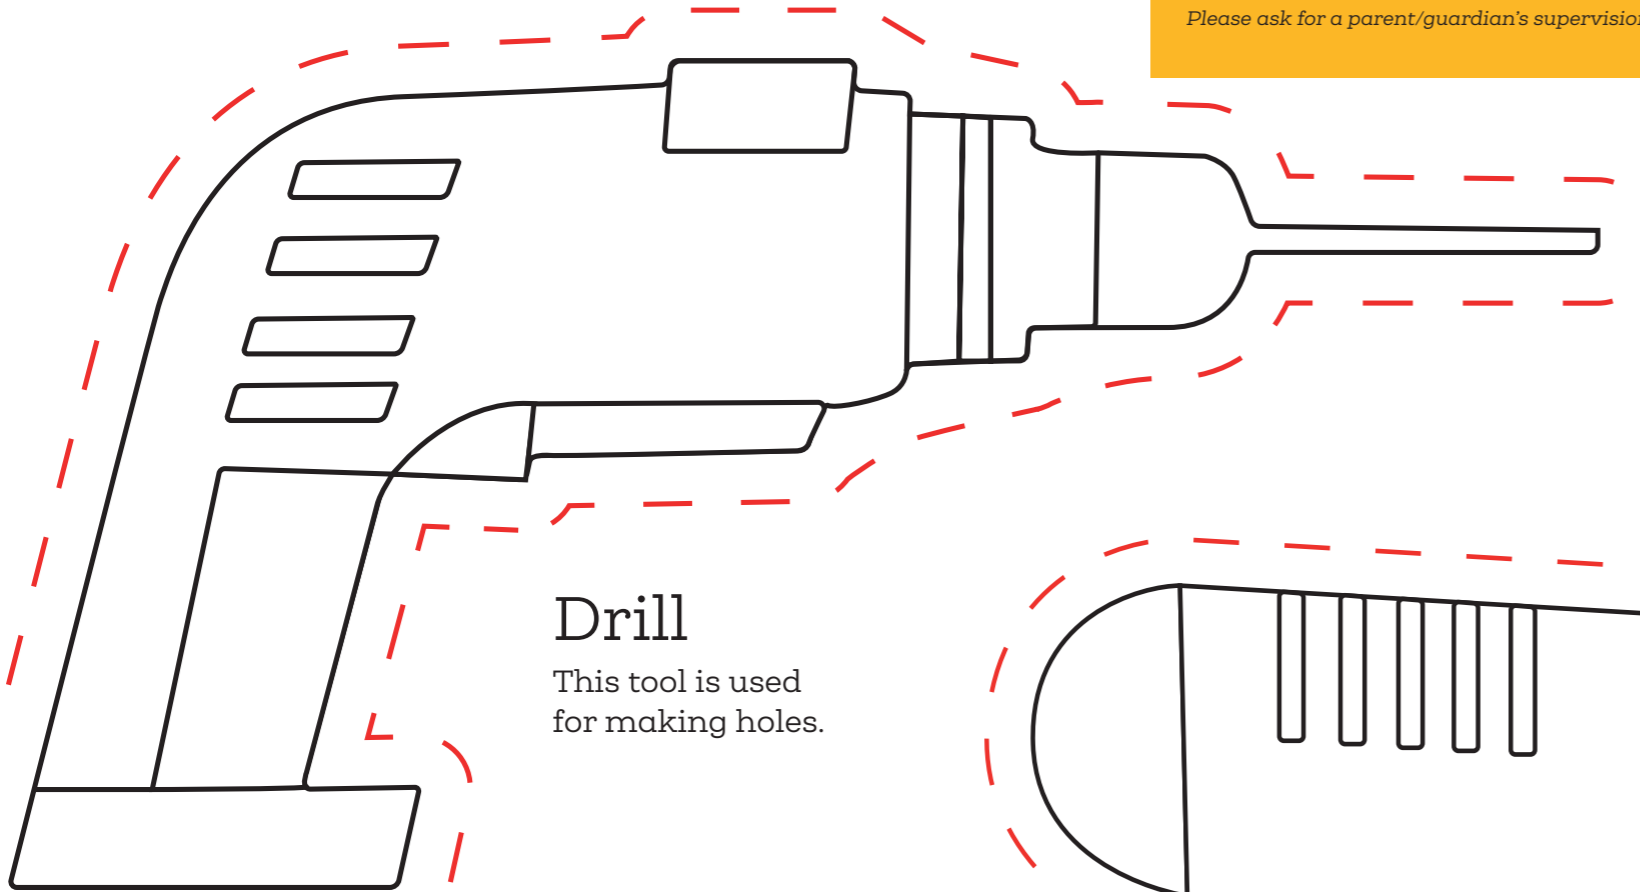

1 A3 sheet of cardboard  
Glue  
Scissors  
Colouring pencils

*Please ask for a parent/guardian's supervision*

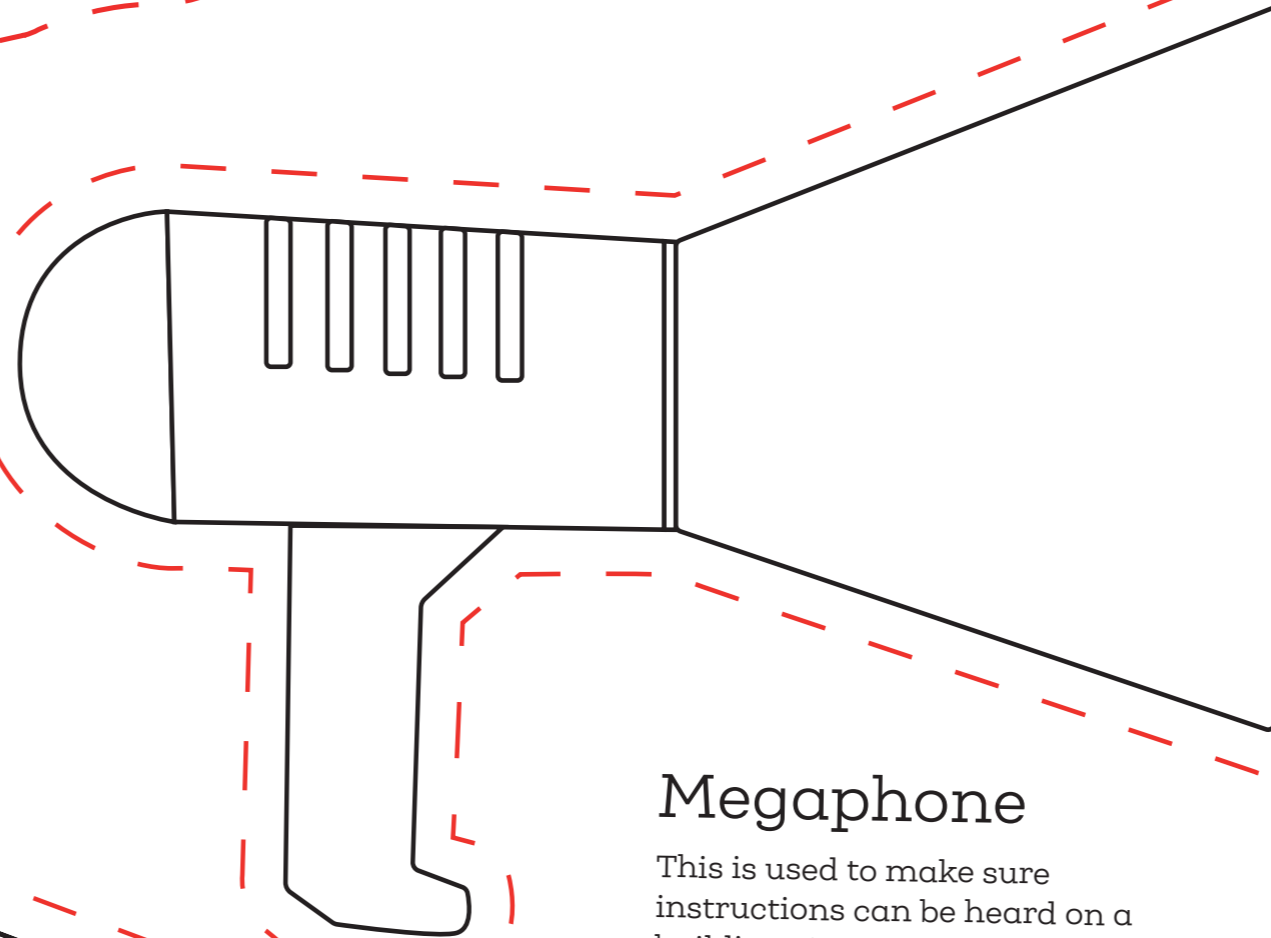

## Hammer

This tool is used for banging in nails.

## Drill

This tool is used for making holes.

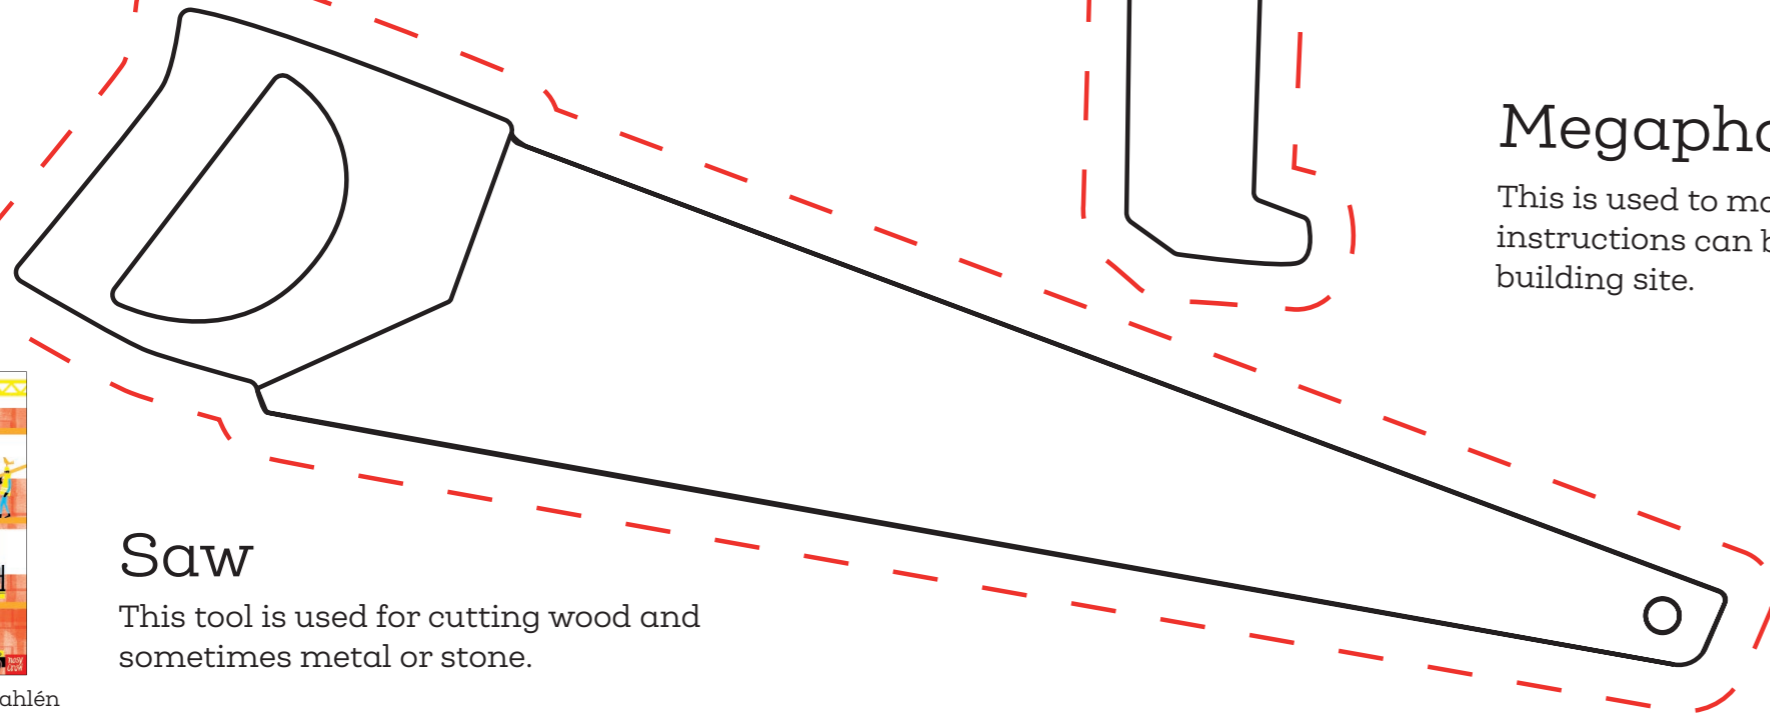

## Megaphone

This is used to make sure instructions can be heard on a building site.

## Instructions:

Colour in the tools and then glue this sheet to a piece of cardboard. Carefully cut out each item.

Cut out the descriptions and stick them to the back of each tool. Now you're ready to start learning what different tools do!

## Saw

This tool is used for cutting wood and sometimes metal or stone.

# My Dream Home

If you could build the perfect house what would it look like? How many floors would it have? What would the windows and doors look like? Would you have a garden?

Draw and colour in your dream home below!

What makes your house special?
